

Tree accuracy, mk -- readable table (sorted + rounded)

Rows sorted best (top) to worst (bottom); columns sorted best (left) to worst (right), both for this table's own data.

|                                             |       |       |       |       |       |       |       |       |       |       |       |       |
